

"Malawi: The Warm Heart of Africa"

Photographs &
Paper Cuts
By Dympna Dundas

January 2016

I am a self-taught photographer and multimedia artist. From my childhood in Ireland to a trip to Malawi in Africa in 2014 I have allowed my natural surroundings and people I meet to guide in my art work. Motivated by sentiment and a sense of balance I find the creative process relaxing, while allowing my inner imagination to flow out .

This exhibit features photos of Malawi and paper cuttings capturing the essences of scenes, local and Irish.

10% of all sales will benefit The Albert Wisner Public Library.
