

DIGITAL PHOTOGRAPHY

BY PETER KOPHER

Albert Wisner Public Library • Board Room - Main Floor

Peter A. Kopher worked in television production for 40 years as a lighting designer and stagehand. Retired now, he spends his time pursuing his passion for still photography. Peter's photographs, which are a mixture of abstracts, architecture, landscapes and "found" objects, also include out-of-the-ordinary details that might not normally be noticed. His work has been exhibited at many galleries in New York, as well as in Minneapolis, MN, Fairfield, IA and Plymouth, MA.

Peter and his wife Sally formerly lived in a large house barge on the Great South Bay in Seaford, NY - afloat amidst a large, ever-changing, de facto wildlife preserve - until Hurricane Sandy left them high and dry. Originally from Massapequa, NY, Peter and his wife Sally now reside in Warwick, NY.

Over 4,000 of his photos - and some digital artworks, as well - can be viewed online at peterkopher.com/galleries and peterkopher.deviantart.com/gallery.
